

## Fort Sumter National Monument

---

Fort Sumter sits in Charleston Harbor. Visitors arrive by ferry boats from two locations-one owned and operated by the NPS in Charleston and one leased by the concessioner in Mt. Pleasant, SC. The park includes Fort Moultrie (1776-1947) and the US Coast Guard Life Saving Station (1896). Authorized in 1948, Fort Sumter commemorates one of America's defining moments from which we judge where we are with where we have been. America's most tragic conflict ignited at Fort Sumter on April 12, 1861 when a chain reaction of social, economic, and political events exploded into civil war. At the heart of these events were the developing issues of state rights, economy, shifting political power, and federal authority dating from the American Revolution.
